Welcome to the Galaxy Popular for both work and play, Android tablets fill a useful niche between smartphone and computer. Samsung's Galaxy Tab kicks it up a notch, offering both hardware and software technology beyond its competitors. Samsung enhances the basics—web, email, eReader, navigation, music, video, camera—and offers unique tools such as the Bixby assistant and the high-tech S-Pen. Coupled with an envious design, Galaxy Tab is a formidable contender to other devices, offering features you won't find anywhere else. Samsung Galaxy Tab For Dummies helps you take full advantage of everything this sweet device has to offer. Whether you're looking to keep in touch with friends and family on social media, want a portable way to stay connected to your work, or desire to read the latest potboiler or catch-up with the latest streaming TV drama, the Galaxy Tab makes it possible—and this book shows you how. Set up and start using your new tablet Connect with email, video chat, and explore social media Play games, enjoy music, watch

Read Book Samsung Galaxy Tablet In Easy Steps For Tab 2 And Tab 3 Covers Android Jelly Bean By Nick Vandome 2013 07 03

movies and streaming TV Browse digital magazines and enjoy ebooks A whole new galaxy awaits! Get ready to soak it all in!

??? You got a Galaxy! Where's the manual?! ??? The Galaxy is a powerful tablet. I'm sure you are excited to get the most out of it. But what if your all new to this tablet thing? Or maybe you've used tablets before, but not one made by Samsung—the iPad, for instance. This guide has you covered! If you are looking for something comprehensive--that tells you how to side load apps and do things the average person who never do, then keep looking. But if you need something that will help you get started, then read on! Inside, you'll learn about: What makes Galaxy different from iOS, Android, and other smartphones Setting up your tablet Installing apps Accessibility features Using the camera Surfing the Internet Changing system settings And much more! NOTE: This guide is not endorsed by Samsung and should be considered unofficial. It is based off of the "The Ridiculously Simple Guide to Samsung Tab" but has bonus content.

Tablet PCs are taking the computing world by storm and with good reason: they are compact, powerful, mobile and packed full of functionality for almost every need. The Samsung Galaxy Tab is one of the most popular Android tablets on the market. Samsung Galaxy Tablet in easy steps shows how to customize the look and feel of your tablet. It gives a full rundown of the latest version of the Android operating system and how to use it on your tablet in terms of navigating around, performing all of your favourite tasks, getting online and turning your tablet into your own mobile entertainment centre. Apps are a crucial part of Android tablets and this is covered in depth, from using the preinstalled apps, to downloading and using the huge selection available from the Google Play Store as well as Samsung Apps. It also shows how to use your Samsung tablet for your entertainment needs, including music, movies, photos, books and games. Online connectivity is another vital element for tablets and the book looks at connecting to the Web via Wi-Fi, using email, setting up online contacts and using all of your favourite social networking sites at the tap of a button. Security on tablets is just as important as on any other computer and this is covered in terms of preventing access to your tablet and staying safe online and when using your apps. Samsung Galaxy Tablet in easy steps will help you to quickly get up and running with your Samsung tablet. Covers the Android Jelly Bean operating system.

??? Unlock all the features of your Galaxy phone ??? Let's face the facts: when it comes to tablets, most people think about iPad; that's a shame because while Apple may dominate the headlines, when it comes to number of tablets sold and technology innovation, Samsung frequently has them beat. If you are making the switch from iPad to Samsung or are upgrading from another Android or Samsung tablet, then this guide will walk you through the basics of the operating system. It's going to cover only what most people want to know—so if you are looking for something highly technical that teaches you how to set up private virtual networks, then keep looking. But if you want something that teaches you all kinds of cool tricks and helps you get started, then this book is for you. You'll learn about: Setting up your tablet Installing apps and widgets Connecting to Wi-Fi Changing themes and wallpaper Using Gestures Using the camera Surfing the Internet Changing system settings Using Samsung Kids mode And much more! Note: This book is not endorsed by Samsung and should be considered unofficial.
