~~Software Architecture
And Design Illuminated
Jones And ...~~

Software architecture
refers to the
fundamental structures
of a software system
and the discipline of
creating such structures
and systems. Each
structure comprises

Online Library Software

software elements,
relations among them,
and properties of both
elements and relations.

The architecture of a
software system is a
metaphor, analogous to
the architecture of a
building. It functions as
a blueprint for the
system and the
developing project,
laying out the tasks
necessary to be executed

Online Library Software

by the design teams.
