The Special Air Service (SAS) is the British Army's most renowned Special Forces unit. From the moment several black-clad figures appeared on the balconies of the Iranian Embassy in London in 1980, interest in the SAS intensified. Their motto, 'Who Dares Wins', has become part of British popular culture.

Special Air Service (SAS) - How To Join | How2become.com

The cloth cap badge of the SAS. In an effort to consolidate the identity of his new unit, Colonel Stirling privately arranged for this insignia to be made up by a Cairo tailor. The cap badge was originally designed as a flaming 'sword of Damocles' but ended up as a winged dagger.

The exploits of the British Army's elite 22nd Special Air Service Regiment - the regiment of the SAS that forms part of the Regular army - are shrouded in mystery and myths abound about its members. But what is the truth behind the public facade of clinical professionalism? How has such a small regiment attracted so many weighty legends? And what is the purpose of the SAS in the 21st century? "Special Force" provides an original and unusually critical overview of the activities of the SAS from the Malayan Emergency of 1950 to the present day. In the context of a detailed and often controversial analysis of the post-war activities of the Regiment, MacKenzie establishes that the Regiment's almost legendary professional competence is often not backed up by reality. Far from being part of a structured deployment of strategic military assets, MacKenzie argues that the use of the SAS in recent years has been primarily driven by the 'entrepreneurial' actions of a few SAS commanding officers. "Special Force" not only offers a revelatory history of the SAS in the modern period, it is also a disturbing expose of the truth behind the myth. It will be essential reading for anyone with an interest in the British military - past, present and future.

A look at Britain's special operations force, the SAS, including information on its creation and history, selection and training, uniforms, equipment, and current operations.

The incredible untold story of WWII's greatest secret fighting force, as told by our great modern master of wartime intrigue Britain's Special Air Service—or SAS—was the brainchild of David Stirling, a young, gadabout aristocrat whose aimlessness in early life belied a remarkable strategic mind. Where most of his colleagues looked at a battlefield map of World War II's African theater and saw a protracted struggle with Rommel's desert forces, Stirling saw an opportunity: given a small number of elite, well-trained men, he could parachute behind enemy lines and sabotage their airplanes and war material. Paired with his constitutional opposite, the disciplined martinet Jock Lewes, Stirling assembled a revolutionary fighting force that would upend not just the balance of the war, but the nature of combat itself. He faced no little resistance from those who found his tactics ungentlemanly or beyond the pale, but in the SAS's remarkable exploits facing the Nazis in the Africa and then on the Continent can be found the seeds of nearly all special forces units that would follow. Bringing his keen eye for psychological detail to a riveting wartime narrative, Ben Macintyre uses his unprecedented access to SAS archives to shine a light inside a legendary unit long shrouded in secrecy. The result is not just a tremendous war story, but a fascinating group portrait of men of whom history and country asked the most.

SAS THOMPSON, L

In early summer 1982--winter in the South Atlantic--Argentina's military junta invades the Falklands. Within days, a British Royal Navy Task Force is assembled and dispatched. This is the story of D Squadron, 22 SAS, commanded by Cedric Delves. The relentless tempo of events defies belief. Raging seas, inhospitable glaciers, hurricane-force winds, helicopter crashes, raids behind enemy lines--the Squadron prevailed against them all, but the cost was high. Eight died and more were wounded or captured. Holding fast to their humanity, D Squadron's fighters were there at the start and end of the Falklands War, the first to raise a Union Jack over Government House in Stanley. Across an Angry Sea is a chronicle of daring, skill and steadfastness among a tight-knit band of brothers; of going awry, learning fast, fighting hard, and winning through.

Since its birth at Kabrti in 1941, the Special Air Service has consistently captured the imagination of the military and public alike by the daring and unconventional nature of its operations. The nature of the tasks and the methods peculiar to the SAS have made it difficult to standardise items of equipment. Apart from issues common to the British Army as a whole, SAS personnel have need of, and access to, various specialised 'pieces of kit': often SAS innovations created to meet specific needs. James Shortt investigates the organisation, tactics, equipment and remarkable history of Britain's elite fighting force.

The Special Air Service is the most respected and feared units of all the military fighting forces. Only the best get to become a member of this elite fighting force and this unique guide will provide you with an insight into life within the SAS and their selection procedure.
