Tails Are Not For Pulling
"Tails Are Not for Pulling" provides a fun and simply way for toddlers to learn how to safely interact with animals. The author poses the question of what animals are really saying when they bark, meow or squeak. It is suggested that the animals are really telling you how they want you to play with them. "Fur is for petting," the cat says.

Tails Are Not for Pulling (Ages 0-3) by Elizabeth Verdick
If pets could talk, what do you think they'd say? This nonfiction picture book poses that question to young readers, who are encouraged to imagine pets saying: "Fur is for petting, not grabbing," "Ears are for listening, not yanking," and, of course, "Tails are not for pulling!" Pets may not have words, but they communicate with every meow, woof, and squeak. Animals also "talk" to us through cues such as wagging their tails, growling, purring, or hissing. Children can learn ...

Tails Are Not for Pulling (Best Behavior Series ...
Tails Are Not for Pulling can help children understand that although animals may not have words, they communicate. Paying attention to an animal's cues—a joyful bark, a scary growl, a swishing tail—can help a child understand what the animal is "saying" and what an appropriate response may be.

5.0 out of 5 stars This really does help teach kids not to pull dogs tails (or otherwise be too rough) Reviewed in the United States on September 6, 2018 I am a big believer in bibliotherapy (reading to help work through how to approach/process things), but I was a bit skeptical how much affect this book would have on our 18 month old and his bad habit of chasing and/or sitting on the dog.

Amazon.com: Customer reviews: Tails Are Not for Pulling ...
Whatever method you choose, start with a clean and dry tail. You can scissor the tail hairs, clip them, or pull them. For the first time, I suggest using scissors. If you simply trim the wild hairs by holding the scissors vertically alongside the dock, your tail will look a zillion times less shaggy. If you use clippers, have a really good idea how and where you want them to go. I suggest starting on the very underside of the tail, and not too far down. If you need to clip more, you can.
