The Aesthetics and Psychology of the Cinema by Jean Mitry

Aesthetics Aesthetic responses are complex responses to external stimuli or to memories. These responses can include some emotional component, a cognitive component, an interest component and some other component, such as awareness of or reflection on that interest or that emotion. The emotional component need not be positive, although that is what

Psychology of Aesthetics, Creativity, and the Arts

Introduction. The psychology of art and aesthetics is the study of the perception and experience of the visual arts, music, film, performances, literature, design, and the environment. Art is a human phenomenon, and therefore aesthetics is fundamentally a psychological process. Psychological aesthetics evolved from the study of aesthetics by philosophers such as Baumgarten and Kant.
