This book was certainly interesting with Einstein at Princetown University in America and involving Robert Oppenheimer when consulted Einstein unofficially in building the atomic bomb. What I did not see was an actual prophecy as such although the major physicists at the time were aware of the implications of Einsteins formula $E=MC^2$.

The Einstein Prophecy Quotes Showing 1-30 of 155 “ If you had never seen war up close, it was an easy thing to be brave and bellicose about it. But if you had, it was hard not to despair. What men could want only do to each other, in the name of nation or faith or ideology, was unthinkable. ”

~~The Einstein Prophecy Quotes by Robert Masello~~

The Einstein Prophecy starts off with a strong introduction but the rest of the story fails to live up to its promise, with huge lapses in logic a failure in basic premises. Worst of all, Albert Einstein is reduced to a relatively minor role and plays no real part in solving the mystery of the evil, seemingly unstoppable force.

These mysteries may, in fact, defy - or fulfill - the dire prophecies of Albert Einstein himself. Struggling to decipher the sarcophagus's strange contents, Lucas and Simone unwittingly release forces for both good and unmitigated evil.

"Modern science and primordial supernatural powers collide as war rages in 1944. Struggling to decipher the contents of a sarcophagus from an Egyptian tomb, Lucas and Simone unwittingly release forces for both good and unmitigated evil. The fate of the world hangs on Professor Einstein's secret research and on Lucas's ability to defeat an unholy adversary"--

The Einstein Prophecy by Robert Masello A 15-Minute Summary & Analysis Preview: The Einstein Prophecy offers an excellent look at a bygone era-World War II. Filled with impressive research into that area, it is, at heart, a horror story with well-established central characters. It deals both with the two major character's attempts to recapture a demon let loose from an ancient ossuary, but there is a secondary theme of the effects of war. In particular Albert Einstein has strong doubts about what he is doing to end the war, that is, in developing the atomic bomb. Many historic characters appear in the book but in a way that either is historically correct or does nothing to distract from their true characters. In many instances, it's a case of "What if..." What if these historical characters attended a Princeton football game, and what if a demon attempted to stab Einstein to death as he watches the game? What if the demon possessed other beings and continued the quest to end Einstein's life? And what if the demon could possess other bodies-animal or human-to cause chaos and destruction? PLEASE NOTE: This is a Summary and Analysis of the book and NOT the original book. This companion includes the following: - Book Review - Character List - Summary of the Chapters - Discussion Questions - Analysis of Themes & Symbols This Analysis fills the gap, making you understand more while enhancing your reading experience. About the Author: Leopard Books, is your perfect quick read companion. We analyze every chapter and hunt down the key points for your convenience. With in-depth summary and analysis, leap through books quickly and with ease.

Warning This is an independent addition to The Einstein Prophecy, meant to enhance your experience of the original book. If you have not yet bought the original copy, make sure to purchase it before buying this unofficial summary from aBookaDay. The Einstein Prophecy is a novel set during World War II that centrally follows the experiences of Lucas Athan as the war approaches its end. The novel begins with Athan investigating stolen antiquities the Nazis had gathered in France. Athan has been tasked with recovering a particular artifact, but is also assisting in locating and recovering many other artifacts and pieces of artwork in the process. The artifact in question, though, is of the utmost interest to other parties as well. Hitler had ordered the artifact in question, an ossuary, to be sent to him personally. Additionally - two scholars from Egypt are also pursuing the ossuary. Athan finds himself wondering what exactly this ossuary represents that would have world powers in the midst of war desperately clamoring for it. However, Athan is injured in the process of recovering the ossuary and is honorably discharged from service. He imagines that this will be the end of his part in determining the importance of the ossuary, but finds that the ossuary follows him back to his civilian life. Thus begins the work of trying to discover the mysteries of the ossuary. Available on PC, Mac, smart phone, tablet or Kindle device. (c) 2015 All Rights Reserved

If the history of black magic and the occult reveals anything, it 's that the drive to marshal the unseen powers of the dark, and bend them to mortal will, is as old as mankind itself. Men and women have believed, in virtually every age and in every land, that there is another world—a world of spirits and souls, angels and demons, gods and monsters, a world that might hold the answers to all the great mysteries: What is life all

about? Does man decide his own fate? Is there a Heaven? And, perhaps more important, is there a Hell? As they sought the answers to these questions, the occult pioneers often stumbled upon real and verifiable truths—the astrologers mapped the heavens and thereby paved the way for the astronomers who followed. The alchemists, in their futile quest to make gold from lead, discovered everything from phosphorous to the manufacturing of steel. Even the seers, who read palms and interpreted dreams, contributed to the vast catalog of human thought and deed, anticipating such later practices as psychology and hypnosis. Here, in one spellbinding volume, is a history of the major occult arts—necromancy, sorcery, astrology, alchemy, and prophecy—as they have been practiced from ancient Babylon to the present day. *Raising Hell* weaves history with mythology, quotes, anecdotes, and illustrations to provide a vivid chronicle of the evolution of the occult arts. From the origins of the pentagram and the sacred circle, to the incantations of necromancers, to the prophecies of Nostradamus, this definitive source offers a compelling look at the black arts . . . and those who risked their lives—and some say their souls—to explore them.

the task of deciphering their sinister message that unleashes a mythic evil on modern-day New York.
Original.

Everyone hides a secret from the past . . . but Lucien ' s secret is inescapable. A living thing that has followed him across the world, from the horrors of Southeast Asia to the penthouse suites of the rich and famous. Everyone craves money, power, and sex . . . but Lucien can satisfy his every urge, every decadent impulse, every erotic whim—for a price. Everyone has private demons . . . but Lucien ' s demon is all too real. All too powerful. All too hungry . . . for human souls.

The gates between life and death have been opened. Musician Jack Logan holds the key. In the streets of New York, he brought a man back from the dead—in plain and shocking sight of a TV news camera crew. Now the whole world is aware of his miraculous power. The media wants to expose him; the scientists to exploit him. But worst of all, the tortured souls of the dead—including his own mother—are reaching out from the void, luring him into the eternal domain, transforming his gift into the ultimate curse. Living or dead, they struggle to seize and control the secret that lies beyond the . . . black horizon.
