~~The Happiness Curve: Why Life Gets Better After Midlife ...~~

The happiness curve is a natural phenomenon tracked through multiple species, and has been charted in multiple societies for the past several decades. In the US, we tend to bottom out around age 50. Few go through an actual midlife crisis, but almost everyone feels a general malaise and disappointment as your life hasn't lived up to your early adult dreams and high expectations.

~~The Happiness Curve: Why Life Gets Better After 50 by ...~~

The happiness curve gets worse if you start to think that you're abnormal or mentally ill. Second, don't get isolated. Many people are ashamed during this time because at age 45 or 50 we're supposed to be on top of the world, masters of the universe. However, it's a vulnerable period of transition.
