Presents woodworking projects and essentials, including how to drive a nail, the safe way to drill and hole, and the importance of measuring throughout the project.

Help kids build confidence and find their own creative voice through this collection of 25+ invitations for drawing. In *Drawing Workshop for Kids*, art educator Samara Caughey, founder of the highly praised family-centered art studio Purple Twig, shares drawing activities that support the development of creative, confident children ages 7 and up. All kids need to begin engaging in the pleasure of these simple yet inspiring drawing projects are a pencil and paper. Along the way, new materials are introduced, giving kids the opportunity to experiment with new techniques. Each of the three main chapters—drawing from life, drawing from images, and inventive drawing—focuses on techniques to explore, such as observation, mark making, shadow, line, composition, detail, contour, and perspective. *Drawing Workshop for Kids* strives to inspire children to investigate drawing and develop their own approach to art, building creativity and confidence.

Projects: Wood sanding, wood oiling, tops I: precut disks, tops II: kid-cut disks, key chain, wood matching, puzzles I: precut blanks, puzzles II: kid cut blanks, how to make lost puzzle pieces, sculpture, pencil holder, furniture, film canisters: airplanes, rafts and people, wooden airplanes, "mom" sign with nail lettering, "dad" sign with hole lettering, magic sieve, camera obscura, magnet post, nail puzzle, boats, balloon boat, hovercraft, tic-tac-toe, nail board, camping stool, mr. bee, basic box, tool or planter box, fire drill, personal ping-pong, yahoo stick, flipper, marble roll, pegged box, branch box, glockenspiel, do-nothing-machine, step stool, whirlpool bottles, thumb piano, wheeled vehicles, kaleidoscope, "log" cabin, sailboat letter holder, whale sculpture, magnet pendulum, stilts, bird feeder, climbing bear, rope machine, just a "nuf."

An entertaining guide for girls on how to make the world into their workshop—with screen-free, hands-on activities for independent exploration, making, building, and play. *The Girl's Guide to Building a Fort* shows girls and their grown-ups how to knock down the four walls holding them in and transform each day into a canvas for play and adventure. This illustrated, information-packed guide is for Hands-On Girls, girls who want to fix things, make things, and learn more about the world around them. The book contains two sticker pages and dozens of activities, projects, and games—many of which can be done in 30 minutes or less with materials you already have in and around your home—and fun and interesting information on everything from how to spot constellations and change a bike tire to how to make your own jerky and what to do if you get lost in the woods. It's the must-have book for anyone, big or little, who's ready to learn new skills, get a little dirty, and reconnect with the whimsical, gutsy girl in each of us.

Makers often come together to form communities where they can exchange ideas and equipment. Readers will set foot in some of the world's most interesting makerspaces and see what kinds of tools makers use to create their projects. They will also learn

This resource is written for classroom teachers, art education specialists, childcare workers, artists working in schools, parents who home-school their children, and school administrators. It can also be used as a university textbook for Education students. The book provides a framework for teaching art in a way that is integrated with regular classroom practice and mindful of current art curriculum outcomes. Although the book focuses on art for primary and middle-school students from pre-school to grade eight, Teaching Art is also useful to art specialists at the high-school level who are looking for new strategies or project ideas to add to their established secondary programs. Revised and expanded from the author's previous resource, Art & Illustration. This resource integrates new developments in art education.

Carpentry is a profession that is just as important today as it has been throughout history. While the tools, techniques, and training may have changed, it still has results that only individual artisans can produce. From honestly confronting the kind of education they want to pursue in relation to goals, To how to go about finding an apprenticeship, this book offers the kind of concrete information that readers can use to build a rewarding life as a carpenter. Interesting sidebars and a helpful resource section provide additional details of all there is to know, learn, and seek about a life in woodworking.

Catch and color these turkeys for your Thanksgiving feast! You don't have to stick to the usual colors because you can even have green, pink or multi-colored turkeys if you want. That's the beauty of coloring. It is non-restrictive and highly imaginative. Let's see what colors you come up with. Begin today!

Let's talk about the ozone layer. Let's discuss how beneficial this shield is to human, animal and plant health. After which, let's move towards how it can be protected from future harm. After all, damage to the ozone layer will ultimately affect all life on Earth. Knowledge is the first step to acting towards environmental care. Get this book today!
