The role of rural producer organizations for agricultural ... scale producers, especially women, tend to be more active. This increased attention on the role of small-scale producers and their organizations raises many debates (Murphy, 2010). Many producer organizations face important challenges in assuming their primary role, which is to respond to their members' needs in increasingly competitive, open and

Producers Organisations (PO) are, to date, one of the main tools that sectoral policies identified to

increase the competitive advantage of farms. The theme of the aggregation of producers, whether territorial or functional, plays a decisive role in the scientific debate, political and technical support for the development of modern agriculture.
