The Wright Exit Strategy Wealth- How to Create It Keep It ...
Cherish Wealth Management was co-founded by Steven Wright, a former policeman according to his now-changed LinkedIn profile, in 2008. It became authorised with the FCA through its principal Shah Wealth Management from 2010. However, Wright said the firm did not trade until November 2011 when he resigned as a director and sold his shareholding.

Shah Wealth Management & Cherish Collapse Leaves £6.7m Bill
A common exit strategy for small businesses is to liquidate your company which means closing your business and selling all of the business assets. If you choose to liquidate, you will need to use the proceeds to pay off any outstanding debts and payout any shareholders.

Provides accountants in small and medium sized firms the tool to expand services beyond attest and compliance functions. Shows how to transition to other professional services that clients value. Provides a pro-forma business plan for mapping a three to five year plan for the transition to a successful practice. Positions consulting as an extension to traditional services, not just an alternative. Includes many real world examples of accountants who have made a successful transition to new services, discussing the challenges and the results achieved. Focuses on quality of life issues and how to get there.

On November 18, 1973, wide receiver Elmo Wright scored a touchdown and became the first professional football player to dance in the end zone. You don't have to be a sports fan to feel the emotions and celebration of a really good end zone dance. Interviewed more than thirty years later, Elmo Wright said, "I've accomplished a lot in my life, but what happened in the end zone is what defines my career." If you own a business, you have something in common with Elmo. Business success may have already brought personal satisfaction and financial rewards. But what happens at your inevitable exit--in your end zone--likely defines your career. An exit that falls short can cause financial disappointment, family strife, or low self-esteem. Success at exit is the crowning achievement of a career, fulfillment of financial and family dreams, or the start of your business legacy. Dance in the End Zone will change your perceptions. Exit planning is not about some distant transaction but rather making decisions today that build a better business and position for your success. The book reveals the Seven End Zone Questions, provides more than fifty tools and tactics--the plays for your Exit Planning Playbook--and shares the real--world stories of dozens of business owners like you. Whether your ideal exit is soon or many years from now, this is a must-read to one day dance in the end zone.

Is the financial plan of mediocrity -- a dream-stealing, soul-sucking dogma known as "The Slowlane" your plan for creating wealth? You know how it goes; it sounds a lil something like this: "Go to school, get a good job, save 10% of your paycheck, buy a used car, cancel the movie channels, quit drinking expensive Starbucks mocha lattes, save and penny-pinch your life away, trust your life-savings to the stock market, and one day, when you are oh, say, 65 years old, you can retire rich." The mainstream financial gurus have sold you blindly down the river to a great financial gamble: You've been hoodwinked to believe that wealth can be created by recklessly trusting in the uncontrollable and unpredictable markets: the housing market, the stock market, and the job market. This impotent financial gamble dubiously promises wealth in a wheelchair -- sacrifice your adult life for a financial plan that reaps dividends in the twilight of life. Accept the Slowlane as your blueprint for wealth and your financial future will blow carelessly asunder on a sailboat of HOPE: HOPE you can find a job and keep it, HOPE the stock market doesn't tank, HOPE the economy rebounds, HOPE, HOPE, and HOPE. Do you really want HOPE to be the centerpiece for your family's financial plan? Drive the Slowlane road and you will find your life deteriorate into a miserable exhibition about what you cannot do, versus what you can. For those who don't want a lifetime subscription to "settle-for-less" and a slight chance of elderly riches, there is an alternative; an expressway to extraordinary wealth that can burn a trail to financial independence faster than any road out there. Why jobs, 401(k)s, mutual funds, and 40-years of mindless frugality will never make you rich young. Why most entrepreneurs fail and how to immediately put the odds in your favor. The real law of wealth: Leverage this and wealth has no choice but to be magnetized to you. The leading cause of poorness: Change this and you change everything. How the rich really get rich - and no, it has nothing to do with a paycheck or a 401K match. Why the guru's grand deity - compound interest - is an impotent wealth accelerator. Why the guru myth of "do what you love" will most likely keep you poor, not rich. And 250+ more poverty busting distinctions... Demand the Fastlane, an alternative road-to-wealth; one that actually ignites dreams and creates millionaires young, not old. Change lanes and find your explosive wealth accelerator. Hit the Fastlane, crack the code to wealth, and find out how to live rich for a lifetime.

WHO IS KILLING THE WORLD'S DICTATORS? When an untraceable website appears on April 1st 2003, threatening to remove unsatisfactory heads of state, it is dismissed as a hoax - until the killings start. Public opinion blames America's War On Terror, forcing the CIA to hunt for the real culprits. But with resources stretched by Iraq, they recruit an outsider. Dr. Shelby Wright uncovers the shocking truth, but the consequences plunge her into a web of intrigue that threatens her life. As further assassinations throw international relations into crisis, both the world and Shelby need an exit strategy.
