This book introduces students to the foundations of intercultural communication, a growing sub-discipline within Communication. Ting-Toomey and Chung are both well known and active in the scholarly community, and their book features a theme of flexible intercultural communication, positioning itself as an antidote to texts that are prescriptive and rules-y or overly theoretical. Praised for its attention to pedagogy and its holistic approach, the book also avoids some of the pitfalls of the market leader, Samovar, written from a fairly masculinist and US frame.

In this volume, Ting-Toomey and Oetzel accomplish two objectives: to explain the culture-based situational conflict model, including the relationship among conflict, ethnicity, and culture; and, second, integrate theory and practice in the discussion of interpersonal conflict in culture, ethnic, and gender contexts. While the book is theoretically directed, it is also a down-to-earth practical book that contains ample examples, conflict dialogues, and critical incidents. Managing Intercultural Conflict Effectively helps to illustrate the complexity of intercultural conflict interactions and readers will gain a broad yet integrative perspective in assessing intercultural conflict situations. The book is a multidisciplinary text that draws from the research work of a variety of disciplines such as cross-cultural psychology, social psychology, sociology, marital and family studies, international management, and communication.

From high-level business negotiations to casual conversations among friends, every interpersonal interaction is shaped by cultural norms and expectations. Seldom is this more clearly brought to light than in encounters between people from different cultural backgrounds, when dissimilar communication practices may lead to frustration and misunderstanding. This thought-provoking text presents a new framework for understanding the impact of culture on communication and for helping students build intercultural communication competence. With illustrative examples from around the globe, the book shows that verbal and nonverbal communication involves much more than transmitting a particular message--it also reflects each participant's self-image, group identifications and values, and privacy and relational needs. Readers learn to move effectively and appropriately through a wide range of transcultural situations by combining culture-specific knowledge with mindful listening and communication skills. Throughout, helpful tables and charts and easy-to-follow guidelines for putting concepts into practice enhance the book's utility for students.

Utilizing the `self-OTHER' perspective as a conceptual foundation, the authors portray and interpret some of the distinctive communication practices in Chinese culture. They examine how self-conception, role and hierarchy, relational dynamics and face affect ways of conducting everyday talk in Chinese culture. They explain why miscommunication between Chinese and North Americans takes place and suggest ways to improve communication. By incorporating instances of everyday talk, the authors offer a realistic and clear

"Description: This highly regarded text--now revised and expanded with 50% new material--helps students and professionals mindfully build their knowledge and competencies for effective intercultural communication on any setting. The authors' comprehensive, updated theoretical framework (integrative identity negotiation theory) reveals how both verbal and nonverbal communication are affected by multilayered facets of identity. Written in a candid, conversational style, the book is rich with engaging examples illustrating cultural conflicts and misunderstandings that arise in workplace, educational, interpersonal, and community contexts. Readers learn how to transform polarized conversations into successful intercultural engagements by combining culture-specific knowledge with mindful listening and communication skills. Key Words: intercultural communication, cross-cultural communication, human communication, communication skills, cultural competence, ethnic relations, ethnic studies, multicultural counseling, international business relations, cultural diversity, cross-cultural psychology, ethnography, mindful communication, mindfulness, intergroup communication, integrative identity negotiation theory, acculturation, adjustment, immigration, immigrants, listening skills, textbooks, texts, college classes, college courses, college students, undergraduates, graduates, foreign students, refugees, social psychology, sociolinguistics, international competence"--

Sponsored by the International and Intercultural Communication Division of the Speech Communication Association, the goal of the International and Intercultural Communication Annual is to promote better understanding of the international and intercultural communication processes. The current volume considers the relationships between language, communication and culture. Sections deal with the critical issues related to language acquisition, context and cognition; present an array of perspectives in analyzing the role of language in comparative cross-cultural and communication settings; and examine the role of first and second language usage in intergroup communication contexts.
