Fourteen remarkable stories that combine strong Western settings with a subtle and distinct female voice. This critically celebrated debut collection marks the exciting beginning of prize-winner Meloy's promising career. Lean and controlled in their narration, abundant and moving in their effects, Maile Meloy's stories introduce a striking talent. Most are set in the modern American West, made vivid and unexpected in Meloy's unsentimental vision; others take us to Paris, wartime London, and Greece, with the same remarkable skill and intuition. In "Four Lean Hounds, ca. 1976," two couples face a complicated grief when one of the four dies. In "Ranch Girl," the college-bound daughter of a ranch foreman must choose which adult world she wants to occupy. In "A Stakes Horse," a woman confronts risk and loss at the racetrack and at home. And in "Aqua Boulevard"—winner of the 2001 Aga Khan Prize for Fiction—an elderly Parisian confronts his mortality. Meloy's command of her characters' voices is breathtaking; their fears and desires are deftly illuminated. Smart, surprising, and evocative, Meloy's brilliantly observed stories fully engage the mind and heart.

The Pykks are attacking Earth. As the only warrior in all the cosmos to ever defeat them, Adam Strange leads the planet's

mightiest heroes in all-out war! The only thing is, evidence is mounting that Adam's victory on Rann may not have been everything he says it was. There is time unaccounted for, circumstances left unexplained. Even Batman has started to wonder about his friend. Sure, they are fighting side by side right now, but who will answer for all the things that got them here? Why, Alanna Strange, of course! It's time for the Rannian princess to go out and set the record straight. The hit series continues on a bimonthly schedule.

Originally published in 1907, this book offers to younger readers a series of pictures of out-door life and big-game hunting in the west. It is a field-book, written by a true sportsman out of his own experiences that many people will find a fascinating read today. Many of the earliest books, particularly those dating back to 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original artwork and text.

A psychoanalytic approach to fairy tales that examines how children can project their own internal struggles onto the opposing characters.

Using the accountability framework developed by the World Development Report 2004: Making Services Work for Poor People, this book analyzes the low-level equilibrium and the numerous reforms attempted in recent decades in Peru, and, based on this analysis, proposes interventions that would facilitate the creation of a new social contract for Peru.

"Migration and the Externalities of European Integration analyzes the extra-European dimension of the European Union's (EU) migration policies and the mechanisms developed to enforce the EU's policy decisions. While previous scholarship has tended to

overlook the consequences of Europeanization on actors outside the EU this work scrutinizes the foreign policy dimension in EU migration policies and highlights the Union's complex role as an international actor. Written by scholars of migration policy, the essays discuss the impact of EU asylum and refugee policy on Norway, Switzerland, Eastern Europe, Euro-Mediterranean, and EU-Turkish relations and the effect of migration on European immigration controls and welfare policy. This comprehensive treatment of transnational migration will be a valuable resource for students of international affairs, European integration, and international organization."
