Advertising Playbook

"Finally, someone has documented all we know about online advertising and how to do it right. As much as this confirms that online advertising really works, we know that marketers don't always get it right. The ARF's The Online Advertising Playbook provides critical insight on what sticks and what

doesn't in online advertising and marketing." —Greg Stuart, CEO and President, Interactive Advertising Bureau and coauthor of What Sticks "The Online Advertising Playbook's principles, case studies, and strategic insights equip marketers with the best knowledge available. It will help your online

advertising achieve the full range of marketing objectives, from lead generation and customer acquisition to driving trial and loyalty." —Tim Kopp, Vice President, Global Interactive Marketing, The Coca-Cola Company "To grow interactive marketing from here we need to institutionalize our wisdom and

but also an invaluable go-to guide for managers trying to make smart decisions with their advertising budgets." —Van Riley, Vice President of Research, AOL "The best marketing communication is spawned from what I call 'informed intuition.' After reading The Online Advertising

"This is a must-read for any marketing executive involved in online advertising. It's high time that a book looks at online advertising in the context of an integrative promotional strategy, one meant to set objectives, establish creative strategies, and

measure results. The book nicely ties the various components of online advertising to relevant case studies, and the emphasis on measurement and results is refreshing. Not only is it relevant for marketing executives, it would also be a good basic text for any Internet advertising course and a good adjunct to any Internet
