A; The Advanced Clinical Solutions (ACS) is a US test which was published at the end of 2009 and is an extension of the WAIS-IV and WMS-IV predominantly for use by neuropsychologists. This US test was administered to a sample of examinees along with the WAIS-IV/WMS-IV.

Pearson Assessment - Pearson Clinical

The WAIS-IV measures multiple components of verbal, visual-perceptual, auditory working memory, and processing speed abilities. Theoretical and empirical support for the usefulness of measuring fluid reasoning with the WAIS-IV is discussed. The WMS-IV can be used to measure different aspects of declarative and episodic memory.

Search Tips. Phrase Searching You can use double quotes to search for a series of words in a particular order. For example, "World war II" (with quotes) will give more precise results than World war II (without quotes). Wildcard Searching If you want to search for multiple variations of a word, you can substitute a special symbol (called a "wildcard") for one or more letters.
