Dentistry with a vision : building a rewarding practice ...
As a wet fingered dentist who has taught this essential subject I know that my teaching methods work, following a day hands-on course even complete novices can take the type of images shown on this website and in my teaching with relatively modest equipment armed with my tips and tricks from years of practice.

Photography for dentists
I am a retired dentist. I graduated from dental school in 1976. I practiced " wet fingered dentistry " until the AIDS epidemic opened my eyes. That triggered a paradigm shift in infection control for us. We also had to modify our practices in the face of bacterial biofilm contamination of our water lines and several other microbial threats.
