question of a physicist, the physicist will probably start by talking about atoms, and then proceed to talk about the protons, neutrons and electrons that make up an atom.

*What is the World Made of?*

What Is the World Made of? By Sharon Janis .  
This universe isn't just some kind of inconsequential, random spark that has blasted through a big black hole somewhere beyond the space/time continuum. It may be that, but it is also much more than that.
