Classroom and How to Lead It. The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that

it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback.

Insurmountable as the challenges faced by many students may seem, TWR can

make a dramatic
difference. And the
method does more

than improve
writing skills. It also
helps: Boost

reading
comprehension

Improve
organizational and
study skills

Enhance speaking
abilities Develop
analytical

capabilities TWR is as much a method of teaching content as it is a method of teaching writing.

There's no separate writing block and no separate writing curriculum.

Instead, teachers of all subjects adapt the TWR strategies and

activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into

School has students
practice the chunks
they need,
