The lenses are pure manual focus designs with a smooth rubber grip on the focus ring. The freely turning ring is a plus for cinematographers who want to mount the lenses to the latest high-end...

Zeiss Expands Manual Focus Milvus Lens Series

Not only would Zeiss have to offer service to calibrate autofocus on lenses, but there are also other problems with phase-detection such as focus shift, which is often a problem with most lenses. Mirrorless Sony and Fuji cameras use contrast detection autofocus and can focus at a set aperture, which results in far more accurate focus.
